

Carl,

Attached are two files: A draft proposed (generic) permit and a brief analysis of the differences between the existing and proposed language.

Please be very discrete with this until the canneries have reviewed it. This does not represent the position of either of the canneries, but is only a starting point for discussions. I'd be interested in your reaction and comments. I'll get a "blessed" version to you as soon as possible.

Feel free to extract sections to use as discussion points in Samoa, but do not identify it as a proposal from either of the canneries at this time. Hopefully we can be more positive next week.

Regards,

Steve
